BOMBAY COTTON TRADE ASSOCIATION.

Bombay, October 15, 1883.

To JOHN GORDON, Esq., Secretary, Bombay Cotton Trade Association.

SIR,—At a General Meeting of the Native Cotton Merchants held on the 7th instant, Clause 28 of the objects and rules of the Bombay Cotton Trade Association was fully discussed, and it was then eventually resolved that the above Association should be requested to substitute the following clause instead of the said clause 28:—

"Every seller should tender cotton to the purchaser as provided by the conditions of sale on or before the due date. If the purchaser does not approve of the cotton tendered, a survey should be held. If in such survey the allowance awarded be up to Rs. 5 the purchaser shall accept the goods. If the allowance awarded exceed Rs. 5, the purchaser shall be at liberty to purchase cotton contracted for at the market rate of the day on account of the seller. The contract, however, shall not be cancelled."

We, the undersigned members of our Association therefore request you to call a special meeting of the whole of the Members of our Association with a view that the above matter may be placed before them and decided according to the view of the majority.

We are, Sir,
(Sd.) GOCULDAS MADHAVJEE and 11 OTHERS.

IN accordance with this requisition, a SPECIAL GENERAL MEETING of the Members of the Cotton Trade Association is hereby convened for WEDNESDAY, the 7th day of November, 1883, at 3 o'clock p.m.

In the event of the Resolution proposing the adoption of the foregoing Clause not being passed, the Meeting will then proceed to consider what action should be taken with reference to contracts antagonistic to the rules of the Association.

The following alternation will be proposed in Rule XXIX:—

That the words "arbitrators in equal shares" be struck out and that the word "losers" be substituted.

By order of the Chairman,
J. GORDON,
Bombay, October 31st, 1883. Secretary.

THE mail-steamer Surat is expected to arrive to-night—about midnight.

THE Viceroy has given his assent to the Act passed by the Bombay Legislative Council in September, to amend the law concerning the confinement of civil prisoners liable to imprisonment under the Criminal Procedure Code, so that a man detained in a civil jail on becoming liable to be imprisoned or committed to custody under the Code of Criminal Procedure, may, by direction of the Governor-in-Council, be confined under the criminal charge in the civil jail.

THE Act, also passed by the local Legislature in September, to enable Government to prescribe the official seals of sessions judges, magistrates, and other public authorities, has received the assent of the Viceroy.

THE heavy rain which fell here on Saturday evening appears to have extended as far as Ahmednuggur, whence letters here writes that it rained heavily on Saturday, and the weather continued threatening on Sunday. There was rain also at Mahableshwar.

THE *Bengal Times* writes with taste and feeling of the political and personal character of Lord Ripon, Viceroy and Governor-General of India:—"Overflowing with generous confidence, a Bengalee editor tells us of Lord Lytton that 'no Viceroy that ever came out to India was held in more bitter contempt.' We think we know of one whose name will be transmitted to posterity as the most infamous and unprincipled ruler that ever administered the affairs of this great Empire; the most unreasonable, prejudiced, self-degraded, and self-dishonouring Englishman that ever incurred the contempt of mankind generally, or brought a blush to the cheek of his countrymen. This, we believe, is what most Englishmen in India think of a creature to whom Lord Lytton, in talent and administrative capability, in national pride and personal dignity, cannot be compared without an insult to him. One might as well compare a meteor with a rocket"—or the *Bengal Times* to the most scurrilous vernacular print that furnished Lord Lytton with reasons and pretexts for the Gagging Act.

THE Municipal Corporation again considered, at their meeting yesterday, one of the reports submitted by the committee appointed to consider a number of questions affecting the Municipality and Government, with regard to the proposed extension of local self-government. The question immediately before the Corporation was "how the standing outstanding claims of the Municipality against the Government should be settled." After discussion, it was resolved, on the motion of Col. Merewether, "that the Municipal Commissioner be requested to prepare a statement explaining the circumstances and giving the wording of the agreements under which Government had not been fully assessed for rates and taxes, and had only paid two-thirds of the water rate levied from the public. That this statement be printed and circulated to the members of the Corporation, and that in the meantime the consideration of certain items in the report should be postponed." As to the police charges, the meeting agreed to a proposition moved by Mr. Dinanath R. Khote, to the effect that Government be requested to consider, with a view to an equitable adjustment, the losses entailed on the Municipality by reason of their having withheld their contribution of one-fourth towards the cost of the city police from 1871 to 1874, and on account of the amount paid short by Government from 1875 to 1882.

A REWARD of five thousand rupees is offered for the recovery of a diamond pendant lost from a necklace worn by His Highness the Gaekwar of Baroda on or about the 30th October—Baroda we presume. The diamond forming the pendant weighs about 32 to 32½ ruttees, and is valued at Rs. 30,000.

IT appears to be settled, the *Englishman* says that the present Chief Engineer of Bengal will retire at the end of the year, and will, in all probability, be succeeded by Col. Trevor, R. E.

THE *Statesman* fails to see what the Gaekwar of Baroda wants a "Military Adviser" for:—"The numerical strength of each branch of the service is: artillery, 154 men; cavalry, 247; and infantry, 3,011; band (mounted and foot), 93; general and officers, 5—giving a total of 3,510 men all told. The State appears to be free from internal troubles, and it is not easy to understand why a special 'Military Adviser' is necessary, especially as there are five well-paid general and staff officers attached to the force. We find that the cost of maintaining the 'army' in 1880-81 was Rs. 7,34,191. The new appointment will probably carry with it an enhanced expenditure of Rs. 15,000 to Rs. 20,000, and what corresponding benefit will accrue to the State is at present only known to the Baroda authorities, the Government of Bombay, and the Supreme Government."

THE Scotch are getting up a little breeze all to themselves at Poona. "Thistle" writes to the *Deccan Herald*:—Can the Scottish community of Poona be generally aware that their Scottish School is on the point of extinction? It is an open secret that Mr. Greig, late Scottish Chaplain in Poona, and the chief supporter of the school even since his transfer to Bombay, is about to take furlough, and that, no one coming forward to take Mr. Greig's place, the school is about to be closed. Is this creditable to the Scottish community? The Scotch have not usually been found backward in matters of education. If the Anglicans can maintain two large, admirable schools in Poona, if the Methodists can support a good school of their own, is it to be said that the Scotch alone are so apathetic or so incapable that they leave their young ones to the good offices of other bodies and other nationalities? Where is the Scottish Chaplain, Mr. Greig's natural successor? Where are the authorities of the Free Church Mission? Where are the natural leaders of the Scottish community in Poona?" To this stirring appeal "Haggis" retorts:—"It is *not* the apathy of those who should be its supporters that is to be blamed for the non-success of the Scottish School. The reason is simply that, under the existing arrangements, nothing but failure could be expected. Let the School Committee appoint an energetic, experienced, and well-educated head-mistress, or superintendent, and there will not only be no necessity for closing the institution, but it will become as successful and flourishing as its Anglican rivals." In the meantime, Mr. Greig's "natural successor" maintains a discreet silence, and has no Bishop to put him to the question.

PRINCE HEINRICH OF HOHENZOLLERN, second son of the Crown Prince and Princess of Germany, is expected to be among the distinguished visitors to India next year. The Prince is serving as Sub-Lieutenant on board the German corvette Olga, which is now cruising off the west coast of South America. The Olga is under orders to proceed to China, and subsequently to the India station. She will not return to Germany before the spring of 1885.

THE *Englishman's* view of Mr. F. T. Atkins discomfiture at Edinburgh is that "the standpoint from which Mr. Atkins addressed the Conference was much too high for their educational capacity." The *Madras Mail* says the affair shows the gravity of the mistake made in sending a delegate to the English working classes, who all hold that race and creed should not disqualify a man for any office for which he may be personally fitted.

FROM the October number of the *News of Female Missions* of the Church of Scotland, we learn that Miss Emily Bernard, who has been in charge of the Church of Scotland's Ladies Mission at Poona for six years, has been appointed Superintendent of the mission at Calcutta. Miss Augusta Reid has been appointed from home as assistant to Miss Bernard. A lady member of the Church of Scotland has offered £100 a year for five years for an additional assistant for the Calcutta mission. The Ladies' Committee are accordingly receiving applications for another lady to accompany Miss Bernard and Miss Reid, who will take up the work in January.

ACCORDING to the latest official report on the weather and crops in the Punjab, the prospects of the *kharif* are generally good; but rain is needed throughout the Provinces for the *rabi* sowings.

SURGEON-GENERAL J. M. CUNNINGHAM, Sanitary Commissioner with the Government of India, and Surgeon Major D. D. Cunningham, Professor of Physiology, Medical College, Calcutta, are to come to Bombay to meet the German Cholera Commission. Referring to the fact that the Commission has already sent in some kind of a report, in which it expresses itself convinced, by researches in Egypt, of the truth of the germ theory, the Lahore paper remarks:—"The Germans were rather hasty in jumping at a conclusion which Indian experts, after years of study, can still only regard as wanting proof. The Commission, indeed, is said—while discovering germs in cholera cases—to have quite neglected to establish the impossibility of the same germs existing in the case of a healthy man. Surgeon-General Cunningham will doubtless be able to explain to them that the true theory of cholera is not to be found in a day. Dr. Cunningham, too, has already distinguished himself in this branch of medical research, and should be able to give them valuable aid, if they are not too self-opinionated to accept it."

THE Italian Opera Company gave their first performance in Calcutta on the 1st instant, when "Il Trovatore" was produced. We quote the following from the *Indian Daily News*:—

"We must say that the promise of the Impressario has been fulfilled. The leading performers are not only fine singers, but they give evidence that they are also fine musicians. Signora Facciolt possesses a lovely voice, and in the part of Leonora was better than any artiste that has taken this part in Calcutta. The Azucena of Signora Margoni was simply admirable. The lower notes of this lady's voice are of unequalled richness; her register is unusually wide, her execution that of a thorough musician. Signora Cerbi as Inez, was pleasing, and her voice exactly suited the part. Signor De Angelis as Manrico astonished the audience with the power and flexibility of his voice, Signor Farina as the Count de Luna brought to notice a baritone voice of most unusual compass and of a fine volume. He sang with great power, and also with feeling. Signor Vilelmi's voice is of great compass, but he did not seem to be in good voice last night; still his performance was most favourably received. So was Ruiz, by Signor Benucci. Upon the whole, we have to congratulate the Committee upon the character of the company they have got together, and the success of their first performance."

THE end of the Khond rising in Kalahundi is recorded in the Central Provinces Administration Report for 1882-83. Mr. Jones writes:—

"The work of pacification and restoration of order proceeded with the greatest promptness during the year under report. By the end of October, 1882, the jail had been emptied of the prisoners awaiting trial for their share in the rising, the country was in a state of peace, and a general amnesty was practically proclaimed. The organisation of an efficient police force was rapidly proceeded with, and the troops were gradually removed. By March, 1883, the last of the troops had left Kalahandi. Meanwhile a Revenue Settlement was being made by the Political Agent appointed to the charge of the State. The final report on this settlement has not yet been received, but the Chief Commissioner is assured that it is moderate so as to meet the depressed state of the country, that it removes the grievances of the Khonds so far as there was just ground of complaint, and that it is satisfactory to the people generally. So effectually were order and confidence restored, that the State fell into its normal condition, and cultivation was everywhere resumed. Of course, some decrease in the area under cultivation occurred, but the fears of scarcity and famine which were entertained proved groundless, and the requirements of the population were fully met."

THE hop plantations in the Chumba State are not, the Lahore paper says, worked by the Murree Brewery Company, who have nothing more to do with the matter than purchasing the produce. Hops have been grown for four years in Chumba. Major Marshall, the Superintendent, at the suggestion of Mr. H. Whymper, made his first experiment in 1880, both in the Pangi Valley and near the town of Chumba. The results being satisfactory, the cultivation was extended. Both in 1881 and 1882, good crops were obtained, and the quality of the hop was commended by experts. The sample which received the Amsterdam medal was from the crop of 1882. The Agricultural Department of the Government of India requested the Superintendent of Chumba to send a specimen for the Exhibition; but as the hops had been already despatched to the Murree Brewery, the sample had to be forwarded from Gora Gully, and by some mistake was exhibited as being produced by the Brewery Company, instead of by the Chumba State. The hops were, however, grown, dried, and prepared entirely under native supervision. When the success of hop culture in Chumba seemed to be fairly assured, the services of Mr. J. Beck—who was in charge of the Murree Brewery's plantation in Kashmere—were engaged by the Chumba State, and under his superintendence, some thirty acres have been and are being planted out.

BY an order of the Governor in Council, Straits Settlements, dated the 13th ult., immigration of Indian agricultural labourers will be permitted to the Native States of Perak, Selangor, and Sungei Ujong, on condition that their engagement must be authorized by the Resident, under guarantee that they will be treated as if under the laws in force in the Colony for their protection. This, says the *Straits Times*, will remove one of the most serious drawbacks to the development of these States, and will enable public and private works to be carried out that have hitherto been held in abeyance for lack of labour, or from the high price and the inferior quality of that procurable.

OF what punishment, asks a Shanghai paper, shall a man be thought worthy—be he washerman, coolie, or boy—who steals a shirt? "Here in Shanghai, such a delinquent might possibly escape with a 'cut' of his wages, supposing his master to be leniently inclined, or at the worst a trifling punishment inflicted by the paternal magistrate of the Mixed Court. Not so an Imperial eunuch. One of these august though unfortunate beings has lately committed the dreadful sacrilege of stealing eight shirts belonging to His Majesty the Emperor. He was condemned by a tribunal consisting of several Boards and Courts to be summarily decapitated, but the Emperor has been graciously pleased to commute the death-penalty to one of imprisonment for life!

THE Victorian Premier has been asked in the Legislative Assembly by Mr. Walker whether he would adopt means to make known in Great Britain and Europe the advantages offered by the colony of Victoria to intending immigrants. Mr. Service replied that he communicated with the Agent-General on the subject some time back. "There is no doubt," the Melbourne *Argus* remarks, "that while the other colonies systematically put themselves before the public, Victoria is falling into comparative obscurity, but the Agent-General says that it matters little how you bring the advantages of a particular colony before the English public unless it is prepared to assist immigrants as do the other colonies. Mr. Murray Smith mentions, however, that if a handbook were supplied to him he could distribute copies among inquirers, and Mr. Service has under consideration the propriety of acting upon this suggestion."

A GREAT sensation was caused in Collins-street east, Melbourne, about 1 o'clock on the 1st October, by the report of three shots, fired in rapid succession, inside the Bank of Victoria. A Mr. Henry Thomas, auctioneer, of Heathcote, went into the bank, and after being there a minute or two, mounted a large round table in the centre of the public room, and flourished a revolver. The clerks and customers were greatly alarmed, and sought shelter in all sorts of places. Thomas, however, evidently had no intention of harming any one but himself, as he raised the revolver and fired three shots at his own head. The first two shots missed him, but the third took effect on the right side of the forehead, and the would-be suicide fell to the ground. Before he could do himself any further harm he was secured. On being removed to the Melbourne Hospital he was very violent, and repeatedly said whilst in the casualty room, "Why won't they let a fellow shoot himself if he wants to?" He was removed to one of the wards, and after the wound was dressed he became under treatment much calmer. The cause of the act is said to be losses in business, which he attributes to the manager of the Bank of Victoria at Heathcote. Thomas was on October 10 still in the hospital, and was getting better.

The court found the prisoner guilty of all the charges, and sentenced him to suffer penal servitude for the term of ten years, and to forfeit the Afghan medal. The finding and sentence have been confirmed by H. E. the Commander-in-Chief.

THE STAFF CORPS PENSION RULES.

THE mail brings us news which will be unwelcome to a large class of our military readers. A correspondent, on whose judgment we seem unquestionable, writes us from London, under date Oct. 8:—"Truth, though often unpleasant, is always better than indulging in vain hopes, and it may be interesting, though painful to you, to your military readers, to know that I hear, on the very highest authority, that the Secretary of State for India has once and for all set his face against *any modification* of the pension rules, so that every one had better make up his mind to retire for his colonel's allowances, as until the Government of India makes a most persistent effort, which I fear is not likely to be the case, it is hopeless to expect any relaxation of the present stiff and unsuitable rules. I have recently made many enquiries on behalf of various friends, all of whom want to retire, officer in civil employ, locals, Staff Corps and cavalry, but regarding all the same answer is given, so let no one believe in the last "shave" which came from India, and which I heard at an army agent's, *viz.*, that the rule of some years ago allowing officers of 23 years' service and over to retire on a graduated scale, with option of commuting, is to be reintroduced. Nothing of the kind. Civilians may be crying out for promotion, but the military civilian is not to be helped by any such thing, and the "lucky" local must stay on, as, though within six years of the prize, being younger, his expectations are better than those of the Staff Corps officer at 32 years' service, and consequently of greater actuarial value. He is not allowed to retire on £783 per annum; the cavalry officer has had and will have scant measure of justice, and the Staff Corps officer need not expect the coveted intermediate pensions that would suit him so well, and induce him to leave. Finally, *no one* need expect to be allowed to count sick leave as service. Am I not right, Sir, in saying that there is no help for it but to serve on for colonels' allowances? You may rely on it that what I say is correct, and though the news may be unpleasant, it may serve to settle the minds of many. Residing in England on English pay I should add is, except for the utterly worthless, inadmissible."—*Englishman*.

TELEGRAPHIC WEATHER REPORTS.

SIMLA, NOV. 3.—The area of deficient pressure noticed yesterday over the west of Madras is gradually filling up, at the same time that it continues its passage slowly westward. The barometer is consequently recovering over the Peninsula, as well as rising in other parts of the country. Westerly winds in the extreme south have given way, and the winds are now generally south-easterly over the Peninsula, are still accompanied by a good deal of rain, four inches having fallen at Madras, and smaller amounts elsewhere on the south. In other parts the winds are easterly or north-easterly, and the weather is fine, though with much cloud in Bengal, Assam, and Berar. The temperature is falling steadily except in the south. The maximum in the North-West yesterday was between 85° and 88°. Rain to-day:—Madras, 4 inches; Salem, 1 inch. Previously, Calicut and Rajahmundry, 2 inches; Colombo, ½ inch.

NOV. 4.—To-day's reports show that a general increase of pressure has occurred during the past twenty-four hours, the change being greatest over Southern India, where the depression recently noticed has disappeared. The wind is variable in the extreme North-West, northerly over Bengal and Arracan, easterly over the Peninsula. It is generally moderate. The sky has cleared somewhat in Bengal and the Central Provinces, and as a consequence the temperature has risen; but elsewhere in Northern India, where the sky remains clear or nearly so, a further slight fall is reported. The weather is overcast in the south, and slight rain has fallen there, and also at Bombay. Rain to-day:—Bombay, Madras, and Mercara, 1 inch. Previously, Negapatam had 5 inches; Chitaldroog, 4 inches; Guti, Cuddapah, Madura, and Colombo, 1 inch; Raipur, Sholapur, Bangalore, and Tuticorin, over ½ inch.

PROTECTION OF SURAT FROM THE FLOODS OF THE TAPTEE.

No. 725 C. W. 1685 of 1883.
Public Works Department.
Bombay Castle, 1st November, 1883.

LETTER from the Honorary Secretary, Surat Flood Relief Fund, 1883, dated 22nd October, 1883:—

"We have been instructed by the Executive Committee of the Surat Flood Relief Fund to request you to submit the following representation for the favourable consideration of His Excellency the Governor-in-Council.

"The attention of the Executive Committee has been drawn by the working Committee appointed at Surat to administer relief to the sufferers from the recent flood of the river Taptee, and by the Hon'ble T. C. Hope, late Collector of Surat and now member of the Council of His Excellency the Viceroy and Governor-General of India, to the subject of improving protective works in the city and districts of Surat, and in the country adjoining thereto, for preventing the floods of the Taptee rising to an abnormal height and inflicting serious loss on life and property. We have been requested to invite the consideration of Government to the annexed letter, which we have received from the Hon'ble Mr. Hope on this subject. The Executive Committee earnestly solicit His Excellency the Governor-in-Council to appoint a committee of experts to examine the existing works, and to devise measures which it might be advisable to adopt with a view to improve the existing works and to construct further protective works in and about the city or in the adjacent districts in the shape of simply protective improtective-irrigational works, on a scale sufficient to prevent the waters from inundating the country. The Executive Committee are of opinion that the cost of such works might be defrayed from State funds. These works, the Committee respectfully submit, are such as legitimately come within the province of the State; and as Government would largely participate in the advantages afforded to the public revenues by the construction of such works, there would be no objection or difficulty towards carrying out the proposal. In the interests of a large district like Gujrat, from which the State derives a considerable income."

Resolution.—The Chief Engineer for Irrigation should report and advise on this subject.

W. L. BAKER, Colonel R. E.,
Under-Secretary to Government.

THE CHARGE OF ASSAULT AGAINST THE POLICE.

INSPECTOR RENNIE and Constable Guider, together with three sepoys named Ladoo, Succaram, and Rowjee, were charged again yesterday before Mr. C. P. Cooper, at the Fort Police Court, with assaulting three Borahs named Abdoolalli Allibhoy, Adamjee Jeewajee, and Jafferjee Adamjee, in Baba Daboo-street, on the 14th August last.

Mr. Brown, of the firm of Messrs. Hore, Conroy, and Brown, appeared for the first two complainants; the third complainant was unrepresented. Mr. L. Russell, barrister, appeared to watch the proceedings on behalf of Superintendent Brewin; Mr. P. M. Mehta, barrister, represented the two European officers; and Mr. Balcrishna, of the firm of Messrs. Balcrishna and Bhugwandas, defended the sepoys.

Shaik Ebrahim Imam, a police constable, remembered the day of the disturbance in Borah Mohla. He went there with Mr. Brewin and others from the Girgaum Police Court. When he got there, he saw a large crowd assembled, and he assisted in dispersing it.

Abdool Rahman Mahomed Jaffer, Ebrahim Hoosein, Sittaram Cassinath, Gunput Crishna, Krishna Luxmon, Kairatali Vuliysaheb, Bhow Crisnajee, and Yaseeo Dajee, police constables, were also examined. They were present at the disturbance and assisted in quelling it.

Mr. James Joseph Killen, inspector of police, said that in August last he was acting superintendent of the D. Division, and in that capacity was in no way subordinate to Mr. Brewin. As such superintendent the Girgaum Police Station was in witness's jurisdiction. Native prisoners in the stone-yard receive food, if brought to them, outside for them with the permission of the European officer in charge of the station. If unable to provide food for themselves on the first day, an allowance of two annas a day is made for batta. There is no particular time laid down to give the batta. A person may be taken into custody, and after a short time complain of being hungry, and if he has not sufficient money himself, the batta is given to him and food obtained by the police at the chowkey. General instructions were given to the karkoon in charge to carry out these rules with the permission of the inspector of the station. Inspector King was in charge of the station on the 14th August, but had since left the force. Guider also lived there at the same time, and, witness believed, Mr. Fido also. Witness received no orders on the 14th or 15th August to release any one on bail. No application for bail for Abdoolalli was made to him.

To the Court.—Witness did not know that any application for bail was made to Mr. King on Abdoolalli's behalf. If Mr. King refused, they could have gone on to the superintendent of his division, who on that occasion was the witness. It was often the practice to apply for bail to the Commissioner or his Deputy.

Cross-examined by Mr. Brown.—Others besides Abdoolalli were arrested. Two were released under the orders of Mr. Brewin, who could release any one apprehended in his own division. If an application for bail had been made to witness, he should have inquired of the Superintendent, C. Division, if there were any objections.

To Mr. Perozshah.—I would, after due inquiry, have thought myself competent to release the men on bail.

Govind Narayen, a police karkoon employed at the Girgaum Police Court, was so employed there in August last. In the middle of that month, the man named Abdoolalli was brought there as a prisoner. Batta was paid him as a remanded prisoner. With the two annas paid him by witness, he had sweetmeats bought for him. Witness gave him water to drink. On the 12th February last Abdoolalli was three times fined eight annas at the Girgaum Police Court for causing an obstruction in a public street.

Abdool Cadur, a clerk at the Girgaum Police Court, produced four charge sheets from the records of the court.

Raghoo Babajee, a police constable, remembered the complainant Abdoolalli being brought to the Girgaum police chowkey on the 14th August last. He was in the chowkey till noon of the following day. Two annas were given him for batta. He was once before fined Rs. 25.

Zolfeikarali Asadali, a police constable, identified the complainant Abdoolalli as the person who was convicted and fined in the Girgaum Police Court on the 12th February last.

Meya Jan Abdool Kadur, a police havildar, remembered the complainant Abdoolalli being charged at the Girgaum Police Court with being disorderly in a public place at the end of 1882. He was warned and discharged.

Mr. W. R. Jones, inspector of police, knew Abdoolalli before he was charged at the Girgaum Police Court on 14th August, 1883. He was previously charged with being disorderly in a public place, and was convicted.

To Mr. Brown.—Abdoolalli has been brought before me on several occasions, and I know him personally.

Tattoo Gunnoo, a police naique, knew the complainant Abdoolalli. About a year and a half ago he and another were charged by witness at the Girgaum Police Court with being disorderly near the theatres in Grant-road. They were placed before Mr. Jones, inspector of police. Abdoolalli was convicted and fined for the offence.

Mr. Harry Brewin, recalled, was shown a charge sheet, proving that Abdoolalli had previously been convicted and fined Rs. 25. Witness was the prosecutor in that case, and the charge was assaulting a police officer in the execution of his duty.

Mr. Perozshah wanted the witness to state the circumstances under which that charge was laid.

Mr. Brown objected to the evidence on the point.

Mr. Perozshah stated he wanted to show that Abdoolalli had been doing on previous occasions the same thing that he did in connection with the present case, namely, obstructing and resisting the police in the discharge of their duty. He had been resisting the police, and then getting up a prosecution against them, as in the present case.

After some further discussion, Mr. Perozshah was content with putting in the charge sheet in the case against Abdoolalli referred to by Mr. Brewin.

Mr. Brown objected to the charge sheet being admitted.

Mr. Perozshah.—It has already been in evidence for some days.

Mr. Perozshah said this was the case he placed before the court on behalf of Mr. Guider and Mr. Rennie.

Mr. Balcrishna expressed his intention to call evidence on behalf of his client, to show that none of the complainants were ill used by the police on the way to the Girgaum chowkey.

Dhondia Jotee, a coolie boy, said that he and another coolie boy were engaged by a policeman to take away some pieces of tin in their baskets. The complainant Abdoolalli and another Borah hustled the policeman about, took away the pieces of tin into a shop, and a disturbance occurred. A third Borah took part against the police. A police havildar called the Borahs out of the shop, but as they refused, more policemen were sent for. A saheb came and went up into the shop, but as the Borahs would not come out, the sepoys were ordered to see them and bring them out. The Borahs struggled with the police. There were two or three sahebs there. Stones were thrown about, and a large crowd collected. Witness did not see a Borah taken away in a buggy.

Luxmon Peera, another coolie boy, generally corroborated the statements of the preceding witness.

Further inquiry was adjourned till 11 o'clock to-day (Tuesday). The magistrate expressed his intention to visit the scene of the disturbance at twenty minutes before 11 a. m. to-day.

tives, denied himself ale and wine, has found a fountain of consolation in the teapot. His usual allowance was sixteen cups, all of heroic strength, and the effect upon his brain seems to have been altogether favourable, for his sermons were both long and eloquent."

Some good work has certainly been done under the influence of tea. Kant's breakfast, it is reported, consisted of a cup of tea and a pipe of tobacco, and on these he worked eight hours. De Quincey, who was no revolutionist, usually drank tea from eight o'clock at night to four o'clock in the morning. Victor Hugo, who is revolutionary, drinks tea it is true, but then he fortifies it with a drop of rum. Buckle was a most fastidious tea-drinker. No woman, he declared, could make tea until he had taught her; the great thing, he believed, was to have the cups and even the spoons warmed. Most of the writing men of our day drink tea. Most of our busy men, however, find some stimulant essential. One uses alcohol, another tobacco, a third tea. Sir Charles Dilke's usual stimulant in London is tea, but when leading a healthy outdoor life he abstains almost absolutely from stimulants of every kind. Commenting upon William Cullen Bryant's confession that he never touched tea or coffee, Willam Howitt said, "I regularly take both, find the greatest refreshment in both, and never experienced any deleterious effects from either, except in one instance when by mistake I took a cup of tea strong enough for ten men. On the contrary, tea is to me a wonderful refresher and reviver. But people should learn to take such things as suit them, and avoid such as do not. This, perhaps, is the essence of the whole matter. "What is one man's meat is another man's poison," says the homely proverb; and it is as true of tea as of everything else. That tea may produce nervous irritability is no doubt true, but it is also the most potent rival of the gin-bottle. As for the accusation that it dissatisfies men with the existing order and predisposes them to seek after the impossible, that is hardly a reproach, when there is so much that is wrong in the existing order and when men are so little disposed to aspire after the ideal. Men will not cease drinking tea because the Dean of Bangor denounces it, but if there is any truth in his theory, is it not possible that some stern Radical may yet arise who will insist upon stimulating the spirit of reform by making tea-drinking compulsory by Act of Parliament, at least in the case of every Conservative?—*Pall Mall Gazette.*

SALE OF VALUABLE PROPERTY KNOWN AS THE BYCULLA HOTEL, situate at Bellasis-road, Byculla.

Messrs. BENNETT and Co. have instructions to sell by public auction (on the premises) on WEDNESDAY, the 28th day of November, 1883, at 4 p.m., the following very valuable property, namely—

The premises lately occupied by Messrs. Kelly and Co. and known as the "Byculla Hotel," consisting of a very large and well built three storeyed main building, having a projecting three storeyed wing behind it and a detached billiard-room (the latter having its own independent entrance direct on the Bellasis-road), together with a large yard, a cookroom, godown, stables, and servants' quarters in rear of the main buildings.

The premises are most favourably and conveniently situated, having a frontage upon the Bellasis-road of about 294 feet, and being about equidistant from the Byculla Station of the G. I. P. Railway and the Grant-road Station of the B. B. & C. I. Railway, and not more than one mile from each. The building is admirably adopted to the purpose for which it was built, and for which it has hitherto been used, namely, a first-class Hotel, but it is so arranged that it could, at a moderate expense, be readily partitioned into three or four distinct blocks, having separate entrances, so as to form six or eight commodious and convenient flats or sets of apartments capable of being let separately to private families (a class of accommodation for which there is increasing demand) while the ground floor from its position and frontage is admirably adapted for first-class shops.

The [illegible] building and the greater portion of the [illegible]illiard-room stand upon a freehold piece of land [illegible] by admeasurement 2,250 square yards or thereabouts. The cookroom, godowns, stable and servants' quarters stand on an adjoining plot of land measuring [illegible]886 square yards or thereabouts, leased to the late Mr. John Treacher for a term of 31 years, which will expire on the 1st day of April, 1896.

Further particulars and conditions of sale may be had on application to the auctioneers or to Messrs. Crawford and Bovey, solicitors for the vendors, at their office, No. 19, Esplanade-road.

CHRONOGRAPH WATCHES,

OF A NEW AND IMPROVED SYSTEM.

WE have just received a consignment of NEW RACE OR CHRONOGRAPH WATCHES which for durability, accuracy precision, and convenience leave nothing to be desired.

The Chronograph hand is in front of the watch over the hour and minute hands. The cases are extra strong, with a solid cover on the back and a glass inside to protect the work.

The general objections to the Chronographs with second hand and glass on the back were that those glasses often broke, and each time necessitated a cleaning; that the glasses did not thoroughly protect the works from dust; and that to move the regulator it almost required the help of a watchmaker.

All these serious drawbacks of an otherwise good watch have been avoided in the construction of our new and improved Chronograph watches.

SIMPSON AND CO.,

BY SPECIAL APPOINTMENT

COACH BUILDERS AND HARNESS MAKERS

TO H. R. H. THE PRINCE OF WALES,

201, MOUNT-ROAD, MADRAS.

ESTABLISHED 1840.

THE above firm have much pleasure in calling attention to their varied stock of Conveyances, completed and now in course of construction at their manufactory. Practical experience and close personal supervision enable them to turn out Carriages, which in design and finish contrast favorably with those of the first British and Continental builders. Simpson and Co. deem it almost unnecessary to state that they only use the best materials, and their carriages, being built with thoroughly seasoned country timber, have been proved, after lengthened trial, to withstand the trying effects of the Indian Climate infinitely better than those imported from Europe.

BROUGHAMS, of the latest design, single and double seated, circular glasses or folding up venetians in front, concealed door hinges, and the most recent improvements for one or pair of horses.

BAROUCHES, canoe-shaped or angular, for pair of horses.
